Professional Profile

Mr. Douglas Jones is a Senior Vice President located in McLaren/Hart's Irvine office. Joining McLaren/Hart in 1981, Mr. Jones has over 16 years experience providing a broad range of environmental expertise including property transaction assessment, regulatory assistance, soil and groundwater investigation, risk assessment, feasibility studies, remedial design, and implementation of remedial measures. His focus has been in Remedial Investigation/Feasibility Study (RI/FS) programs, where his strengths include strategic program planning, negotiations, Superfund, working with PRP groups, representing PRP groups, design and implementation of investigation programs, technology evaluation, pilot testing of technologies, and concise reporting. Prior to joining McLaren/Hart, Mr. Jones spent 6 years with California environmental regulatory agencies.

As Senior Vice President, Mr. Jones has technical responsibility for major McLaren/Hart clients working with multiple offices to bring the highest level of company expertise to bare for significant complex projects. Mr. Jones frequently provides expert witness, second opinion and allocation support services.
